

AI Fluency Crash Course

Complete Roman Urdu Notes — Panaversity Agent Factory

Prepared by: Imran Hassan

agentfactory.panaversity.org/docs/ai-fluency-crash-course

1. Core Idea

"AI tak pahunch hona" aur "AI ko sahi use karna" — yeh dono bilkul alag cheezein hain.

*Do log same AI use kar sakte hain — lekin ek behtar results deta hai. Farq hai **AI Fluency** ka.*

4 Zaroori Qualities

Quality	Matlab
Effective	Maqsad hasil karo
Efficient	Time aur tokens waste mat karo
Ethical	Insaaf se, zimmedari se kaam karo
Safe	Apna aur dusron ka data protect karo

2. AI Use Karne Ke 3 Tareeqe

Tareeqa	Matlab	Aapka Role
Automation	AI akela makhsoos kaam kare	Script Writer
Augmentation	Aap + AI milke sochein	Co-Creator
Agency	AI khud decisions le	Director

*Jitna zyada aap "Agency" mode mein jaate hain, utni zyada **Diligence** zaroori ho jaati hai.*

3. Chaar Core Skills — "4Ds"

D1 — DELEGATION

Sawaal: Kaunsa kaam AI ko dena chahiye? Kaunsa insaan kare?

3 Parts:

- **Problem Awareness** — Apna maqsad pehle samjho
- **Platform Awareness** — Sahi AI tool chunno
- **Task Delegation** — Kaam taqseem karo

Misaal — Invoice Chasing Agent:

- Kaunse customers ko contact karo?
- Kitne din late hone ke baad action lo?
- Kaunse faislay insaan ke paas rahein?

D2 — DESCRIPTION

Sawaal: AI ko kya maloomat deni chahiye taake woh sahi kaam kare?

Product Description → Kya chahiye?
(Output, Format, Length, Audience, Tone)

Process Description → Kaise karna hai?

(Steps, Order, Method, Examples)

Performance Desc. → Kaise behave kare?

(Detailed/Brief, Supportive/Critical)

*Aham Baat: Apni hoshiyaari se kaam mat lo — **mukammal tafsilaat do.***

D3 — DISCERNMENT

Sawaal: Kya AI ka jawab waaqai sahi hai?

3 Parts:

- **Product Discernment** — Output bilkul sahi hai?
- **Process Discernment** — Tareeqa kaam kar raha hai?
- **Performance Discernment** — End users khush hain?

Warning — Hallucination Ke Nishanaat:

- Bohat perfect ya round numbers (shayad banaye hue hain)
- Jahan expert "shayad" kehta hai — wahan AI yaqeen se bole
- Jawab ka pehla aur aakhri hissa ek doosre se match na kare

D4 — DILIGENCE

Sawaal: Kya main is tarah AI use karne ka haq rakhta hoon?

PEHLE (Shuru karne se pehle)

└ Sahi tool use kar rahe ho?

└ Data theek aur halal hai?

└ Ijaazat hai?

DAURAN (Banate waqt)

└ AI ka role waazeh hai?

BAAD MEIN (Bhejne se pehle)

└ Haqaiq check kiye?

- └ Sources sahi hain?
- └ Kaunse faislay insaan kare?

Test: **"Kya main apna naam is kaam pe laga sakta hoon?"**

4. Operating Loop

Delegate (Faisla karo) ↓ Describe (Samjhao) ↓ Discern (Jancho) ↓
Diligent (Zimmedari lo) ↓ Repeat ↻

Yeh loop ek baar nahi chalti — **har iteration mein behtar hoti hai.**

5. Amal Mein Misaal — Bookkeeping Agent

Step 1 — Delegation

- Agent transactions match kare
- Sirf draft banaye — approve nahi
- Final faisla insaan kare

Step 2 — Description

- Chart of accounts dein
- Purani misaalein dein
- Report format batao

Step 3 — Discernment

- Purane records se test karo
- Kitni matches sahi hain?

Step 4 — Diligence

- Client data mahfooz rahe
- Clients ko batao AI use ho raha hai

- Kya ghalat cheezein nazar aati hain?

- Insaan dastakhat kare

6. Aamm Ghaltiyan

Ghalti	Wajah	Hal
Pehle likho, soocho baad mein	Delegation skip ki	Maqsad pehle clear karo
Pehla jawab = final	Discernment nahi kiya	Dobara iterate karo
Khoobsurat = sahi samjna	Haqaiq check nahi kiye	Facts verify karo
Ethics baad mein sochna	Diligence ignore ki	Shuru se khayal rakho

7. Rozana Check List

Har kaam se pehle yeh 4 sawaal puchho:

- ☐ Maqsad kya hai? → **Delegate**
- ☐ AI ko kya kya bataya? → **Describe**
- ☐ Jawab sahi lagta hai? → **Discern**
- ☐ Kya yeh safe aur ethical hai? → **Be Diligent**

8. Quick Recap — Ek Nazar Mein

AI Fluency = Effective + Efficient + Ethical + Safe

3 Modes

- Automation
- Augmentation
- Agency

4Ds Loop

- Delegate
- Describe
- Discern
- Diligent

*Yeh course sikhata hai: AI ko **kab, kaise, aur kyun** use karein — sirf kaise nahi.*
